N.W 52/2 — Construction of a
Tank - ~~Erian~~ Kalvai Subsidy sanction

Revenue Department.
Abstract.

Grow More Food - New Well Subsidy Scheme - 1948-49 - (South Kanara) - Puttur Taluk - Thodikhana village - S.No.52/2 - Construction of a tank - Grant of subsidy of Rs.1,500/- - Sri K. Shankera Bhat - Recommended.

Ref:No.V.Spl.5598/48-1.

Station:Chepauk, Madras. Dated 24th January 1949.

From

C.A. Ramakrishnan, Esq., I.C.S.,
Joint Secretary, Board of Revenue.

W.R.S. Sathianathan, Esq., I.C.S.,
Commissioner of Land Revenue and Commercial Taxes.

Read the following:--

1. From the Collector of South Kanara, Ref:C.No.B6.10720-48, dated 15-10-1948.
2. G.O.Ms.No.2840, Revenue, dated 27-11-1948.

Reference:

Submitted to the Government.

2. The petitioner has constructed the tank at a cost of Rs.3,000/- and with dimensions of 63 ft. by 31 ft. and a depth of 7 feet. The tank will irrigate an extent of 5.35 acres for the II crop. The Collector in his letter cited above, has reported that the tank may serve as a supplemental source of irrigation to another field with an extent of 4.80 acres. According to the graded scale sanctioned by the Government in their order cited above, a subsidy of Rs.1,000/- only is admissible for the tank. In consideration of the heavy cost of its construction and of its dimensions the Board recommends that the Government may be pleased to accord sanction for the grant of a subsidy of Rs.1,500/- as a special case.

for Joint Secretary.

To The Secretary to Government, Revenue Department, Madras, with t records.

Copy to the Collector of South Kanara.

Sub: Grow More Food - New Well Subsidy Scheme - 1948-49 - Puttur Taluk - Thodikhana village - S.No.52/2 - Tank - Grant of subsidy - Application.

Ref: Applications dated 26-10-47 and 14-5-48 from Sri K. Shankera Bhat, son of Kabbinahithlu Iswara Bhat, residing at Urimajlu in Idkidu village of Puttur Taluk.

One Sri K. Shankera Bhat of Idkidu village in Puttur Taluk, has applied for a subsidy loan of Rs.2,000/- under the New Well Subsidy Scheme for the construction of a tank in S.No.52/2 of Thodikhana village in Puttur Taluk.

2. The application was received and enquired into during the period when the New Well Subsidy Scheme 1947-48 was in force but as the rule of minimum ayacut of 10 acres was not satisfied in this case and as the proposals for relaxation of the rule were pending with the Board, it could not be disposed of before 31-3-1948. The Board has since ordered that the pending cases of 1947-48, may be disposed of under the New Well Subsidy Scheme 1948-49 and I am submitting this case to the Board in the light of my proposals contained in my Ref:B6-10152-48, dated 2-9-1948 for its orders. (Board's Ref:No.V.Spl.3955/48-1, dated 24-8-48).

3. The site of the tank in this case has been inspected by the Tahsildar, Puttur and the Revenue Divisional Officer, Puttur. It is reported to be suitable for a tank being close to a big hillock. The water oozing out of the hillock feeds the tank besides the springs found in it. The latest report from the Tahsildar Puttur shows that the work has been almost completed and that the dimensions are now 63 ft. X 31 ft. and it is 7 ft. deep.

4. The enquiry held in this case shows that the tank will irrigate an additional extent of 5.35 acres in S.No.52/3, 4 and 12 of Thodikhana village, besides being helpful in the successful raising of the II crop in S.No.52/5 (double crop land 4.80 acres). The Tahsildar Puttur reports that a II crop is raised in S.No.52/5 with great difficulty at present for want of assured water supply. This is one of the cases toillustrate my point that it is difficult to get cases of tanks having a contiguous ayacut of 10 acres and hence my proposals for the grant of graded scale of subsidy based on the extent irrigable by a tank.

5. The petitioner has estimated the cost of the work to be about Rs.4000/- and asked for a subsidy loan of Rs.2000. The Minor Irrigation Supervisor, South Kanara has prepared an estimate for Rs.3000/-, the work being 54 ft. by 29 ft. and 8 ft. deep. The present ~~dimen~~ dimensions are 63 ft. by 31 ft. and 7 ft. The tank is therefore, bigger than that estimated by the Minor Irrigation Supervisor. I submit that the Board may be pleased to treat this as a special case and sanction a subsidy loan of Rs.1500/- (50% of Rs.3000/-) with reference to my proposal - Paragraph 8(iv) in Ref:B6-10152-48, dated 2-9-48 (Board's Ref:No.V.Spl.3955/48-1, dated 24-8-1948).

6. The records of enquiry (pages 1 to 68 c.f.) are enclosed for perusal and return.

Sir,

W.R.S. Sathianathan, Esq., I.C.S.,
Commissioner of Land Revenue & Commercial Taxes.

Sub: Grow More Food - New Well Subsidy Scheme - 1948-49 - (South Kanara) - Puttur Taluk - Thodikhana village - S.No.52/2 - Construction of a tank - Grant of subsidy of Rs.1,500/- - Sri K. Shankera Bhat - Report.

Read the following:-

Board's Ref:No.V.Spl.5598/48-1, dated 24-1-1949.
Government Telephonic Message, dated 5-2-1949.

Reference:

With reference to the Telephonic Message dated 5-2-1949 from the Government referred to above, the Board submits that their sanction was sought for in the matter only because the Board considers that it would sanction a subsidy up to Rs.2,000/- only if the tank is capable

(P.T.O.)

of irrigating at least ten acres as laid down in para 6 of G.C. No.1082, dated 6-5-1948.

for Joint Secretary.

Board of Revenue

Collector of S. Kanara (with records returned)

23.2.49.

Subject: Grow More Food — New Well Subsidy Scheme — Puttur Taluk — Thodikhana Village — S.No. 52/2 — Construction of a Tank — Grant of a subsidy of Rs 1,500.

From the Board of Revenue No V Spl/5598/48-1
— do — do — No V Spl 5598/48-2 dated 11.

Tahsildar.

Please see the Board's references at pages 1-2 and pp 4-5 c/f.

2/. The Board of Revenue has recommended the grant of an enhanced subsidy of Rs 1,500 as a special case for sinking of a tank in S.No. 52/2 of Thodikhana village, Puttur Taluk, South Kanara Dt. The estimated cost of the work is Rs 3000, its dimensions being 54'×29'. The conditions prescribed in para 17 of G.O. Ms No 1082 Revenue dated 6.5.48 are therefore satisfied in this case. The tank irrigates an extent of 5.35 acres for the II crop and serves as a supplemental source of irrigation to another price of land measuring 4.80 acres. Though the combined area under the tank's irrigable capacity exceeds 10 acres of ayacut, the component areas are not contiguous.

3/. Under the orders in G.O. Ms Rev 2840 dated 27.11.48 the Collector is empowered to sanction a subsidy up to the maximum of Rs 1000 in the case of tanks with an irrigable capacity of over 5 acres and up to 10 acres. The Board of Revenue however has powers to sanction subsidy up to Rs 2000/- under para 4 of G.O. No 1082 Rev. dated 6.5.48. The Govt sanction has been applied for presumably because the area to be irrigated by the tank does not lie contiguous.

4/. The tank has already been

constructed by the applicant and it is found that the dimensions are 63'x 31' with 7' depth and cost of actual construction reported as Rs 3000/. Under the New Well Subsidy Scheme 1948-49 the minimum dimensions of a tank dug with Govt aid are 20'x 20' but no minimum depth has been prescribed. The tank in question satisfies the minimum length and breadth prescribed. But in view of the heavy cost of construction, dimensions and usefulness of the tank, the Collector and the Board of Revenue recommend the sanction of a subsidy of Rs 1500 as a special case. The recommendation may, it seems, be accepted and the subsidy sanctioned as a special case. Subject to orders a draft order is put up for approval.
